4WINE® 4FRUIT® : 1st Prize in The Wood Challenge 2006 Competition.

Anton van Dellen and Mathijs Achterberg, both students of the Rotterdam based Wood- and Furniture College won the 1st Prize with 4WINE® 4FRUIT® in the Dutch Wood Challenge 2006 Competition.

A modular, innovative, environmental proof, recyclable wooden wine storage system... that's 4WINE®.

Developed in Holland and CNC milled by Ritmeester BV out of Finnforest® Birch Plywood, 4WINE® offers you a perfect systems to store your wine in a decorative way: The wine bottles at exactly the right angle, the label pointing into your direction.

For use at home (above your kitchen counter worktop) or in any restaurant, wine and liquor store... Selling Display!

And: 4WINE® can be extended with a multi-function Fruit Dish: 4FRUIT®: fruit can be displayed; grapes or bananas can be hung... Form and function combined.

Ritmeester BV
Alblasserdam, December 12, 2006
